# What is Procurement?

**Procurement** is the process of finding, agreeing terms and acquiring goods, services or works often via a tendering or competitive bidding process.

The process is used to ensure the Trust receives goods, services or works at the **best possible price**, when aspects such as **quality, quantity, time** and **service** are compared

Promotes **fair** and **open** competition whilst **minimising risk**, such as exposure to **fraud, collusion** and **poor reputation**

# Value for Money & Competition

- Demonstrate VFM on all expenditure.
- Level and scale of competition proportionate to the level of spend, complexity and risk associated.

**Trust Standing Financial Instructions – accessed from Trust Intranet: Scan here:**

## Supplies/Services:

Value (ex VAT)	Conditions
>£116,407 (FTS threshold)	Government Procurement requirements adhered to (published and formal tender)
>£90,000	As per Government Tendering Regulations (Scheme of Delegation states above £90k)
£30,000 to £115,633	3 or more written tenders received for supplies/services
£5,000 to £30,000	3 or more written separate supplier quotations received for supplies/services
Under £5,000	1 or more written supplier quotation received for supplies/services

# Frameworks – what are they?

- Provides a compliant route to market without the need for an lengthy tender process
- Pre-tendered agreements with numerous suppliers
- Framework length - 4 years then re-tendered to allow new competition

## Two types of Frameworks:

### Direct award

- Sets out the terms and conditions governing the provision of the works, services and/or products
- Has a clear and prescriptive pricing mechanism

### Further competition

- Does not include all the terms governing the provision of the works, services and supplies
- Need to establish price/cost of goods/service
- Frameworks have templates and supporting guidance for running a mini- competition

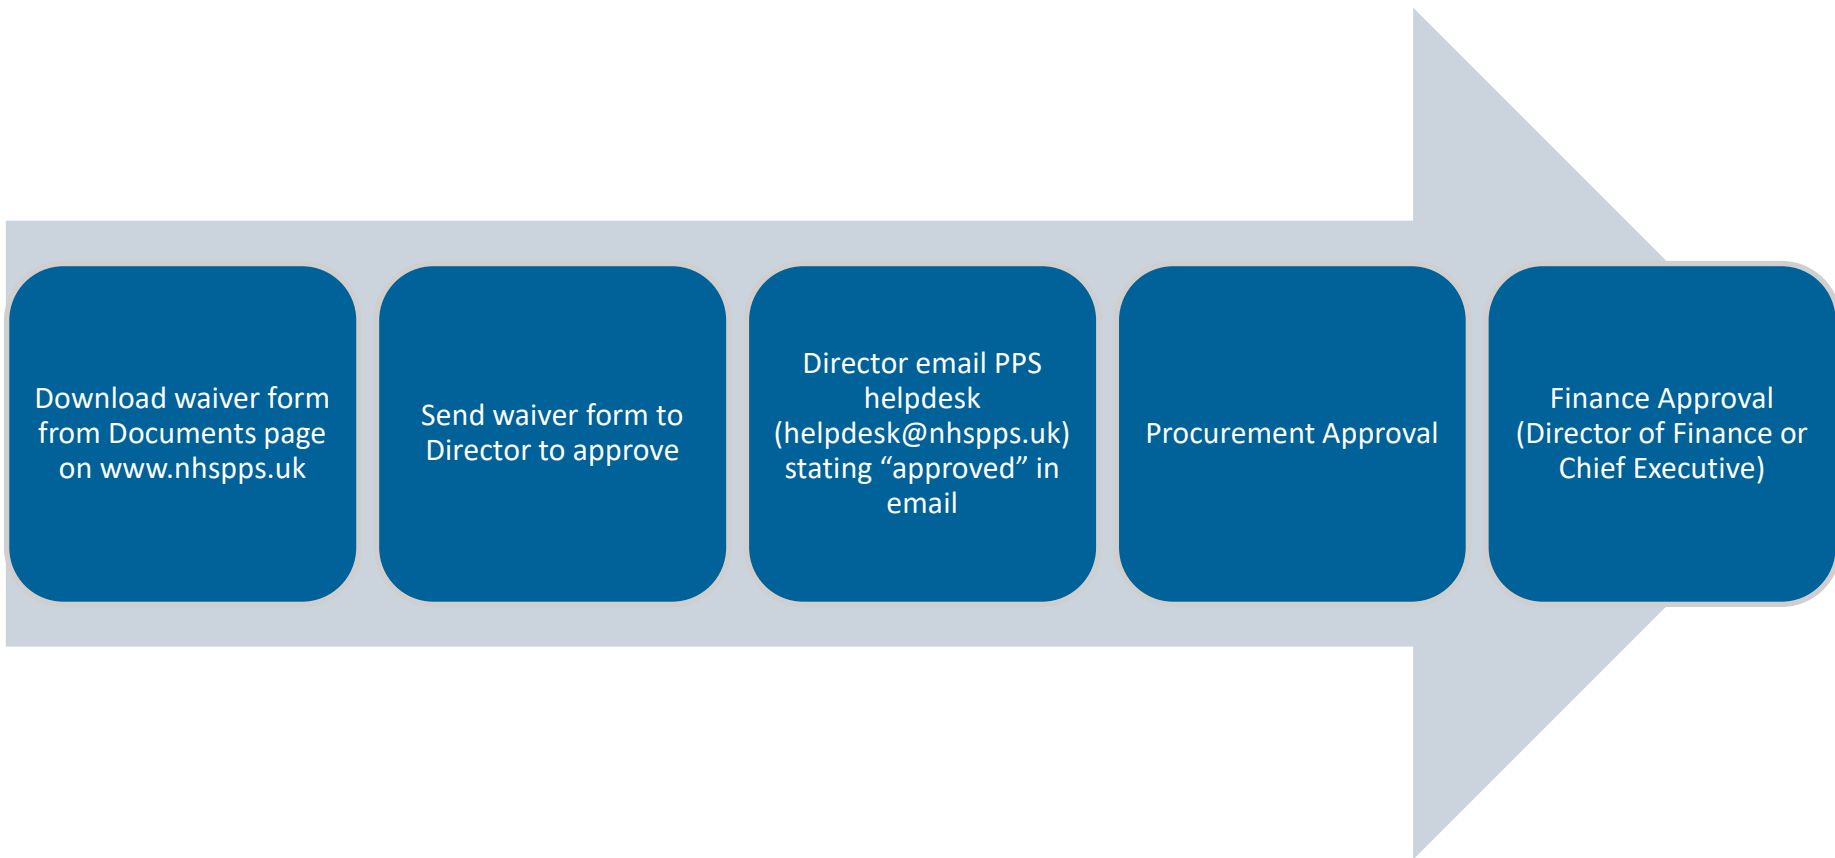

## Waivers - Principles

- Waivers are used when there is no possibility of meeting the Trust SFI's (getting quotes/tenders) and there is no competition, or the requirement is exceptionally urgent.
- Always put as much supporting information on the waiver to justify your reasons for the waiver. Waiver is the last resort!
- A waiver must only be used in the following circumstances (only under procurement threshold value):

# Waiver Process

- The waiver needs to originate from the appropriate approver
- For levels of approval, please refer to the Scheme of Delegation Wizard on the PPS website: [Scheme of Delegation Wizard](#)

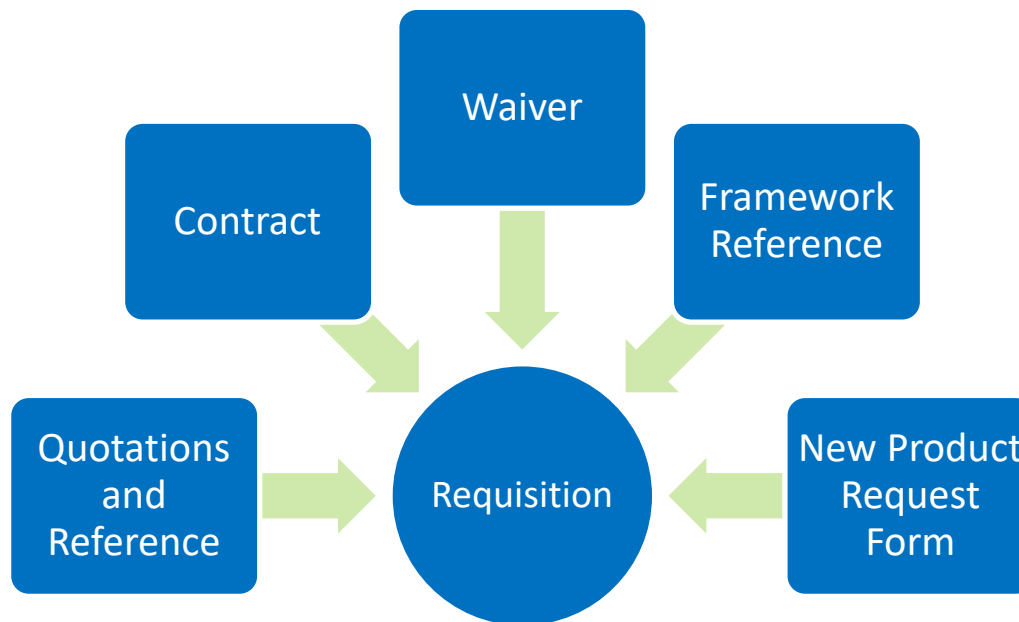

# Requisitions and Purchase Orders (PECOS)

- Internal request for goods or services to be delivered against an existing contract, or for a contract to be initiated.
- Commitment from you to Procurement to spend your department's budget.
- Once approved by the budget holder and Procurement a purchase order is generated
- Authorisation to spend this money needs to be approved through an approval hierarchy (Scheme of Delegation)
- Requisitioners need to know what they are requisitioning for and what information is required
- No requisition number should be used as a Purchase Order number

# What do I need to include on my requisition?

- Follow SFI's (quotes/tenders/waiver)
- Attach the evidence to requisition
- Not all the following will be applicable to every requisition
- Products on catalogue will be released automatically as already on an agreed contract
- Discretionary Spend (furniture, IT) – The Trust have got additional approvals for discretionary spend items so there could be a delay.
