### What is Procurement?

Procurement is the process of finding, agreeing terms and acquiring goods, services or works often via a tendering or competitive bidding process.

The process is used to ensure the Trust receives goods, services or works at the best possible price, when aspects such as quality, quantity, time and service are compared

Promotes fair and open competition whilst minimising risk, such as exposure to fraud, collusion and poor reputation

# **Value for Money & Competition**

- Demonstrate VFM on all expenditure.
- Level and scale of competition proportionate to the level of spend, complexity and risk associated.

### **Trust Standing Financial Instructions:**

# Frameworks – what are they?

- Provides a compliant route to market without the need for an lengthy tender process
- Pre-tendered agreements with numerous suppliers
- Framework length 4 years then re-tendered to allow new competition
- Contact PPS to

### Two types of Frameworks:

# Sets out the terms and conditions governing the provision of the works, services and/or products Has a clear and prescriptive pricing mechanism Does not include all the terms governing the provision of the works, services and supplies Need to establish price/cost of goods/service Frameworks have templates and supporting guidance for running a mini- competition

# **Waivers - Principles**

- Waivers are used when there is no possibility of meeting the Trust SFI's (getting quotes/tenders) and there is no competition, or the requirement is exceptionally urgent.
- Always put as much supporting information on the waiver to justify your reasons for the waiver. Waiver is the last resort!
- A waiver must only be used in the following circumstances (only under procurement threshold value):

Continuation of existing Project

- There is clear benefit from maintaining continuity that outweighs any potential financial advantage to be gained by competitive tendering.
- The task is essential to complete a project and engaging different consultants for the new task would compromise completion of the project;

Sole Supplier • Specialist expertise is required and is available from only one source;

Urgency

• The timescale genuinely precludes competitive tendering. Failure to plan the work properly is not a justification for single tender;

### **Waiver Process**

Submitted by any user to PPS Helpdesk (except the financial approver (CFO))

Waiver logged by PPS and sent for Procurement checks

- Commitment from you to Procurement to spend your department's budget.
- Once approved by the budget holder and Procurement a purchase order is generated
- Authorisation to spend this money needs to be approved through an approval hierarchy (Scheme of Delegation)

- No requisition should be used as a Purchase Order
